for an added fee for overnight and breakfast)

K-STATE
Research and Extension

Saturday, November 17

10:00 - Registration - Heritage Hall

10:35 - Opening of Leadership Weekend with Kansas Youth Leadership Forum - Auditorium

DREAM to DO – Kent Julian - Speaker

Brief Description: What you believe in is evidenced by the steps you take, not just by the words you say... which means success isn't the result of saying the right things. True success only occurs when you live out what you say you believe, even when the circumstances in your life don't go your way. In other words, you must lead your life instead letting life lead you! In this inspiring, hilarious, and empowering keynote, Kent Julian shows students a proven system for overcoming their toughest challenges and step into their best life!

11:30 Get Acquainted Lower HH

12:00 Lunch - Dining Hall - Sit at Designated Tables for Volunteers

1:00 Welcome to Volunteer Forum - Wiedemann

Rock Springs Tour

Take a Tour with Rock Springs Staff to learn about all Rock Springs has to offer for 4-H Camp and other groups throughout the year.

Rock Springs Staff

Working with Your Club Office Team

Successful 4-H clubs have a strong leadership team including officers and club leaders. Join us in this session as we explore ways to engage club officers in taking the lead to make your club the best it can be.

Diane Mack, 4-H Youth Development Specialist, NE Area

Skills for your Lifetime: Recording Keeping and Award Applications

Accurate record keeping and being able to complete effective applications are skills that young people need for their lifetime. These skills can be learned and practiced through preparing 4-H project records and the Kansas 4-H Award Portfolio. Learn tips to help young people succeed in building these skills.

Anita DeWeese -Pratt County 4-H Volunteer

2:30 - Break

2:45 - Workshop 2

Curiosity Grows Here! A Look at 4-H Science

4 H science programs provide 4 H youth the opportunity to learn about Science, Technology, Engineering and Math (STEM) through fun, hands-on activities and projects. 4-H STEM allows youth to develop questions, design tests, create models, build understanding, and share their work with others. Understanding how STEM impacts our lives, solves problems and creates new ones makes it easier for youth to navigate our modern world.

Amy Sollock, 4-H Youth Development Specialist, SW Area

Put Your Knowledge to the Test!

Have you ever wondered what 4-H Conference judging is all about? This class will give you some hands on experience with a variety of 4-H projects. You can use your skills to test your own knowledge and even be the judge. Join us as we unveil the mysteries of competitive judging and preparing 4-H members to benefit from the opportunity.

Michele Henry, Former 4-H Volunteer

Helping Young People Succeed Beyond High School

Planning for life beyond high school is tough! Support from caring adults and preparing ahead of time is key. In this session, we will learn the power of working with others, ways to help youth navigate life after high school, and identify skills that are essential for long-term success.
